

ROADMAP DISCUSSION WITH JOHN · 22 OCTOBER 2026

Growth plan for November and December

What we push hard, what we test, what waits, and the decisions that keep it all moving until 31 December.

Prepared by Pratik Renuse for John · Weeks 43 to 53

BUENO | PROPERTY SIMPLIFIED

INTRODUCTION

A lot of people already know Bueno

The opportunity now is helping more of them make the move, especially people who are fine with their current Spanish account and just need a good reason to switch.

21,000+	~1,800	10,000+
newsletter subscribers	people who started onboarding and stopped	people our ads reach every week

The plan at a glance

- Paid ads bring the cost per register back down, with new Meta ads every week and Google restarted.
- The tax offer and a WhatsApp group give people stuck in onboarding a reason to finish.
- Estate agents are reached by cold email and LinkedIn, and gathered in one WhatsApp group.
- Bueno Club partners and win-back follow once the first three are running smoothly.

GOAL BY 31 DECEMBER 2026

MEASURE	IF WE DO NOTHING	PLAN TARGET
Active paying customers Counted in week 53	2,296 →	2,594
Estate agents in the group Streams 3 to 5 together	0 →	100
Tax-offer completions People who finish onboarding	0 →	205
Bueno Club partners Announced before Christmas	0 →	40

01 PRIORITIES

What matters most, and what can wait

Tier 1 gets attention every single week. Tier 2 runs as tests with a clear end date. Tier 3 moves once Tier 1 is stable.

TIER 1 · MUST WIN BEFORE CHRISTMAS

01 **Meta ads in Norway**

New creatives every Monday to bring the cost per register down to €8.

02 **Free tax filing for people stuck in onboarding**

About 1,800 people, with a deadline of 8 November.

03 **WhatsApp group test through 24/7 Spain**

A place where questions about the tax offer get answered by a person.

04 **Cold email to estate agents**

A SalesBlink sequence that ends with agents joining our WhatsApp group.

TIER 2 · TEST, THEN DECIDE

Google Ads restart
Tracking is fixed first, then search runs in Norway, Sweden and the UK.

Klaviyo campaign
Agents and the tax offer, tested against SalesBlink until end of November.

LinkedIn outreach
About 100 personal invites a week to hand-picked agents.

Norwegian newsletter
The language and the cadence need settling.

TIER 3 · ONCE TIER 1 IS STABLE

Bueno Club partners
The venue list is built now, and calls follow later.

Win-back
Cancelled and closed accounts are contacted from week 46.

UK verified but never paid
We ask why and fix the blocker from week 45.

Facebook group posts
These already run every day in 7 languages.

Meta every week, Google once it is measured

Paid ads are our biggest channel. The aim is a lower cost per register, and a clear answer on how to split the budget between Meta and Google.

01 Meta Ads, new creatives every week

TIER 1 · RUNNING

We launch 3 to 5 new ads every Monday in Norway, and we pause any ad that costs more than €12 per register after 7 days.

Target by end of December: €8 or less per register, and 45 or more registers a week.

Where it stands: the new Norwegian ads are ready and waiting for review.

EVERY MONDAY

What we need from John: sign-off on the Norwegian ads, and a standing 48-hour review window so the Monday launches never slip.

02 Google Ads, search and display

TIER 2 · RUNNING

We fix conversion tracking, restart search in Norway, Sweden and the UK, and refresh the display ads every 3 weeks.

Target by end of November: results we can trust, and a decision on the split between Meta and Google.

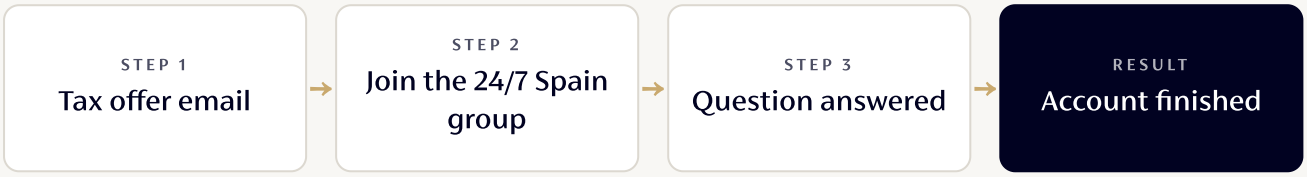

Rule we follow: no extra budget goes to Google until tracking shows real registers.

DECISION AT END OF NOVEMBER

What we need from John: the monthly budget for the restart, and agreement that the split is decided on cost per register.

Free tax filing, and a group where people get answers

Most people who stop during onboarding have one unanswered question. The tax offer gives them a reason to finish, and the WhatsApp group gives them a person to ask.

01 Free tax filing for people stuck in onboarding

TIER 1 · STARTED WEEK 43

About 1,800 people who started sign-up and never finished get their next tax return filed free if they complete their account by 8 November. People whose free trial expired get the same offer with a deadline of 31 October. After 8 November, the offer goes to the newsletter list.

Target: about 200 completed accounts.

DEADLINE 8 NOVEMBER

What we need from John: confirmation that the tax team can take about 200 extra returns, and approval to move the offer to the newsletter list after 8 November.

02 WhatsApp group under 24/7 Spain

TIER 1 · NEEDS GO-AHEAD

We test the group first on 24/7 Spain, which already carries "Sponsored by Bueno". If it works there, the same format carries over to estate agents and to the wider owner community, and its link goes under every Facebook group post.

We measure: people who join, questions answered, and tax-offer completions that came through the group.

TEST FROM WEEK 44

What we need from John: a yes to running it under 24/7 Spain, and the name of the person who answers questions in the group each day.

Three ways to reach agents, one group to bring them into

Agents get a completion checklist for foreign buyers and weekly rule updates. In return we earn a place in their deals, and later a referral relationship.

Agent WhatsApp group
→
GOAL
100 agents by December

01 Cold email from warmed inboxes, SalesBlink

TIER 1 · WARMING UP

A 3-step email sequence offers agents the checklist and the weekly updates, then invites them into the WhatsApp group.

Where it stands: the first list was mostly generic inboxes, so we are rebuilding it for the English-speaking market with one named person per agency.

RUNNING

02 Klaviyo campaign for agents and tax

TIER 2 · WEEK 44

We send the same agent offer with different copy and compare the replies against SalesBlink. The better channel is kept at the end of November and the other is dropped.

DECISION AT END OF NOVEMBER

03 Personal LinkedIn outreach

TIER 2 · WEEK 44

We build a list of agents who sell to Norwegian, Swedish and British buyers, and send about 100 personal invites a week from a connected LinkedIn account. The target is 900 invites and 25 agents in the group.

100 INVITES A WEEK

What we need from John: who answers agents' client questions in the group, because that promise is what makes them stay.

Newsletter, Club, win-back and organic posts

These streams build on the audience we already have. They run with lighter effort so they never hold back Tier 1.

01 Norwegian newsletter

DECISION NEEDED

The newsletter goes out about once a month today, and Norwegian readers receive it in English. We want to send it every second Tuesday, prepared in English, Norwegian and Swedish, with John approving each issue on the Thursday before.

What we need from John: agreement that Norwegian readers get Norwegian from the next issue, and that we move to twice a month.

02 Bueno Club partners

TIER 3 · LIST BUILDING

We build a venue list in the areas where Norwegian and Scandinavian owners spend their time. AI voice calls and email follow, using the ElevenLabs startup grant. Venues give members 10 to 20% off and are seen by more than 22,000 owners.

40 PARTNERS BEFORE CHRISTMAS

03 Win-back of customers who left

TIER 3 · WEEKS 45 AND 46

The 300 who cancelled and the 447 closed accounts get one email and one SMS with free tax filing and Club perks, plus one question on why they left. The target is 20 customers back.

In the UK, 43% of verified users never pay. We ask them why, fix the main blocker, and aim to move from 57% to 70%.

04 Posts in owner Facebook groups

TIER 3 · RUNNING DAILY

One useful post goes out every day in 7 languages across owner groups, and every live post is logged. Once the WhatsApp group exists, its link goes in the first comment. The target is 450 or more posts live by end of December.

Four dates to keep in mind

31 October

The free tax filing offer closes for people whose trial expired.

8 November

The deadline for people stuck in onboarding to finish and get free tax filing.

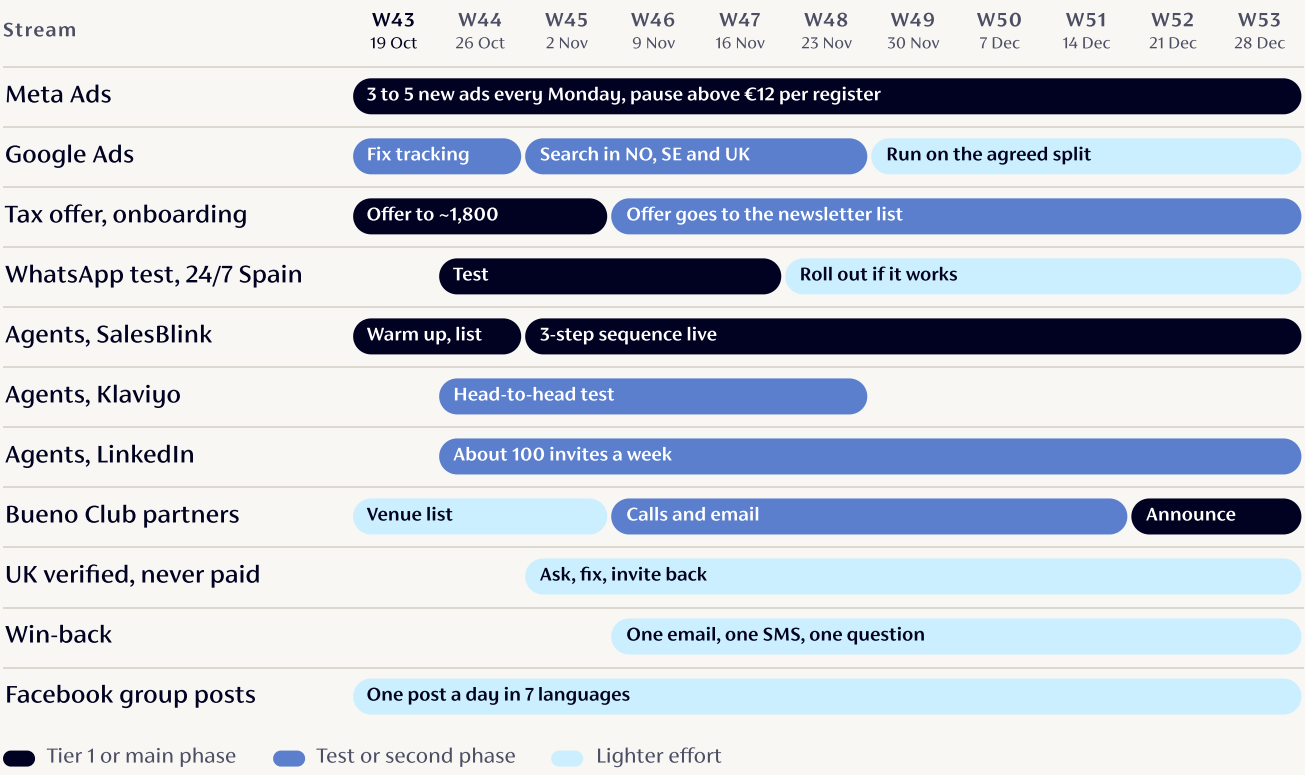

End of November

We decide the Meta and Google split, and SalesBlink or Klaviyo.

Before Christmas

Bueno Club is announced in the newsletter with its partners.

Week by week, 19 October to 31 December

07 FOR TODAY'S CALL

Six decisions that unblock the work

Each of these is holding something back right now. A clear answer on each keeps the next two weeks moving.

01 **Can we run the WhatsApp group test under 24/7 Spain?**

If yes, it goes live in week 44 alongside the tax offer, and the link goes under every Facebook group post.

02 **Who answers questions in the WhatsApp groups?**

Both the owner group and the agent group depend on a real person replying the same day.

03 **Can the Norwegian ads be signed off?**

The review is pending. A standing 48-hour review window would protect the Monday launch rhythm.

04 **Can the tax team take about 200 free returns?**

We also need agreement to extend the offer to the newsletter list after 8 November.

05 **What is the Google Ads budget, and how do we decide the split?**

We propose deciding the split between Meta and Google on cost per register at the end of November.

06 **Should Norwegian readers get the newsletter in Norwegian?**

We propose Norwegian for Norwegian readers, sent every second Tuesday, with John approving on the Thursday before.

08 BEYOND DECEMBER

What these tests are building towards

Each short test should leave behind something we own. These are directions to agree on today, not commitments yet.

Owned communities

The WhatsApp groups become a channel of our own, one for owners and one for agents, so we depend less on ad prices.

Agents who join the group are signed up with Bueno next, so they bring us their foreign buyers.

Search and content

24/7 Spain grows into a steady source of traffic. It already has 190 answers and 31 guides in six languages, and 11,500 pages indexed by Google.

The newsletter moves to twice a month in three languages, with a new guide in every issue, so our 21,000 readers hear from us more often.

Retention

The November offer tells us whether free tax filing should become a standing reason to finish setting up.

Bueno Club gives members a reason to stay, once it has 40 partners in the places where owners spend their time.

PARKED ON PURPOSE

These wait so they do not slow the main work.

- The internal newsletter tool is on hold.
- AI calling for Club waits for the venue list.
- New Google display creative waits for tracking.
- Video versions of 24/7 Spain posts come later.

BUENO | PROPERTY SIMPLIFIED

Figures come from the 15 October roadmap email to John and the current campaign status. Targets run to 31 December 2026.
